Gypsies Depart.
The band of Gypsies which has been holding pow wow in Boyle county for the past two months is departing today for Chattanooga, Tennessee.

There were about 250 men, women and children. From Chattanooga they will go South for the winter, each little band taking a different direction. The meeting was held here for the purpose of electing a king and queen. The wagons and more than hundred head of horses were loaded on the freight cars last night. The Gypsies seem to have plenty of money. It cost about \$800 for the shipment to Chattanooga.

This is the same band of gypsies which has been camping in Garrard county. One of them was arrested here some time ago for stealing money from Mr. Sanders at Marksburg, and is now out on a hundred dollar cash bond.

We Don't Believe He Will.
The Harrodsburg Leader has the following to say about Mr. James Spilman who formerly resided and still retains the privilege of voting in Garrard county:

"The Progressives of the Eighth Congressional District are thinking of putting up a candidate for Congress, in spite of the fact that Congressman Helm recently demonstrated his popularity. Among those spoken of is Mr. James H. Spilman; who lives here but who still retains his citizenship in the good county of Garrard. Mr. Spilman is a successful farmer, a fine business man and qualified to fill the position most acceptably. Of course there is not much show of election in such a Democratic Gibraltar, but the Progressives believe in making a fight all along the line and are insisting on some good man making the race. There seems to be a great deal of soreness resulting from the Helm-Sullivan fight and Mr. Spilman's many friends insist that he could poll a big vote and make a fine showing."

We have known Jim Spilman for a long time and have always known him to be a fighter from the ground up, be it in business, politics or anything else, and we are loth to believe that he would offer himself a willing sacrifice to the Democratic party at the coming November election, and that such would be the outcome, there is not the shadow of a doubt in the mind of any one, be they republican, bull moose or democrat.

Sen. Bradley Provides Fortifications For Lancaster.
Whenever there is anything good up at Washington to be distributed, Senator W. O. Bradley always "gets his," and when the distribution begins his big warm heart always turns to his home town which he loves so well. Yesterday there occurred an opportunity to distribute some war relics in the shape of old cannon and Senator Bradley immediately secured his quota of the available supply for Lancaster. The following press dispatch fully explains just what we are to get:

Washington, Aug. 19.—(Special).—Senator Bradley, being advised that he could get some Government war relics for his State, grasped that opportunity to-day. Lancaster, Ky., in all probability will be furnished old cannon, equipped with carriage and a supply of cannon balls by the War Department.

Senator O'Gorman called up a bill granting condemned cannon to half a hundred towns throughout the country to be placed in public squares, the grounds of public buildings and about State armories. No sooner had the bill been read than there arose a chorus of "Mr. President" from the floor. Senator Jones, of Washington, got cannon for half dozen towns in his State. Senator Fomerene, of Ohio, was recorded one gun. Senator Catron, of New Mexico got two. Finally John Sharp Williams arose and drawled:

"I'd like a cannon for some place in Mississippi, to be designated later."

"There won't be enough cannon to go around," remarked Martin.

"We want to shoot some down in Kentucky," declared Senator Bradley. "Two cannon suitably trimmed for Lancaster, Ky., read the clerk."

"Didn't say I wanted them trimmed," said Bradley, but he accepted the "outfit of cannon balls," when the term was explained.

The bill finally disposed of some 105 cannon.

AUTOLOADING RIFLE

All the advantages of the big game arm with none of its discomforts or annoyances—

The recoil does the work of reloading and ejecting instead of pounding your shoulder. Five shots—just pull and release the trigger. Your action stays open and warns you when it's time to shove in a fresh clip. You can never get in a tight place—the gun never clogs. Each shot strikes a one ton blow.

Simple action—simple take-down.
Send for a motion picture booklet explaining the Remington-UMC Autoloading Rifle's big points.

Remington-UMC Metallic Cartridges combine the highest velocity with the greatest shooting accuracy.

Made in all calibers for every standard firearm. When Remington-UMC cartridges are used, the arm is guaranteed to the full extent of the manufacturer's guarantee.
